

# PADI Open Water Diver Course

With this qualification you become a scuba diver - once you have completed the course you'll have the licence to let you Dive!

## How long is the course?

*That's up to you - with us at ProScuba our courses are running continuously. This means we can individually provide a course to suit you. Flexibility and close guidance with personal service is our key. We don't do mass courses!*

## What are the requirements to do the course?

- *Minimum age is 10 years old - great for families*
- *Be able to swim and have confidence in the water*
- *Be in good health - there is a medical statement to sign*

## How does the course Work?

*Simple - you complete knowledge development at home with your manual and a DVD. Your instructor will then ask you to complete 5 quizzes to check understanding.*

*Then it's off to a local swimming pool to learn how to dive and develop your skills. This is the safer place to master and practice before going out into open water. There are five modules to complete during these sessions.*

*Now to the open water. This can be the sea or an inland lake or quarry. You will need 2 days to complete at least 4 dives. As part of these dives you will be demonstrate that you can be a diver and handle any problems underwater.*

*Once all this is completed - your instructor will award the prestigious PADI Open Water Diver Certification.*

## What does it cost?

*This course starts at £355 per person. Because we tailor all our courses to suit individuals this may vary slightly. Remedial teaching or extra sessions may be charged for.*

*In this you will receive a PADI course manual, Certification and use of equipment.*
